

# SMOKE DETECTOR

The wireless smoke detector allows rooms to be monitored for smoke detection without having to run wiring. It connects wirelessly to the PalCare system and notifies staff of any smoke related issues.

PAL-108000

## Features

- Continually monitors operational status.
- Wireless communication.
- User replaceable battery.
- Suitable for residential application.

## Specifications

- Dimensions: 5.4"W x 2.4"D
- Temperature: 32°F - 100°F
- Humidity: 10% - 90% Non-Condensing
- Battery: 2.3V Lithium (Panasonic CR123A)
- Frequency: 900MHz
- Average Alarm Current: 120mA
- Average Stand-by Current: 35µA
- Typical Test Current: 2mA low battery
- Chirp rate: 1 every 45 ± 2 seconds
- UL Listing: UL217
- Compatibility: Works with all PalCare Wireless Nurse Call systems
