

# PAGING TRANSMITTER

PAL-113100

## Features

- Serial port controlled operation via RS-232 serial port.
- 2 Watts effective radiated power with approximately 1 mile range. **(5 Watt model available).**
- UHF band (450 - 470 MHz).
- Industry standard POCSAG protocol including 512, 1200, 2400 bps, tone/vibe, numeric and alpha numeric.
- Support for multiple control protocols including TAP v1.8, Extended TAP, Simplex TAP, COMP1, COMP2, and WaveWare.
- Onboard watchdog timer.
- Hardware or software flow control.

## Specifications

- Dimensions: 9"H x 8.5"W x 2.25"D
- Weight: 8.5 lbs.
- Power Supply: 12VDC - 3.75A
- Operating Temperature: 22°F - 140°F
- Must be at least 10 ft from any other transmitter
- Operations Rating: Intermittent 66% duty cycle
