

# STAND-ALONE TEMP/HUMIDITY SENSOR

The stand-alone temperature/humidity sensor and transmitter is designed for moderate environments. It provides a cost effective solution that adapts to changing requirements in a matter of minutes.

PAL- 110060

## Features

- Mounting bracket included.
- Transmits and logs temperature and humidity upon significant changes every 5 minutes for regulatory compliance and staff efficiency.
- Temperature range of -4°F to 140°F.
- Humidity range of 0 to 90% relative humidity.
- Fully supervised.
- Case tamper protection.
- Automatic reset.

## Specifications

- Frequency: 900 MHz
- Dimensions: 3 1/2" x 1 5/8" x 7/8"
- Color: Beige
- Battery: CR123A lithium ion battery **PAL-115100**
- Battery Life: 2 - 3 years
- Environment: -4°F to 140°F (Non condensing)

## Usage

- Temperature controlled areas or rooms
- Refrigerators
- Medication Refrigerators
